National Referral Mechanism Statistics – 2016 Quarter 4

This report presents a summary of the number of potential victims of modern slavery referred in to the National Referral Mechanism (NRM) during the period 1st October to 31st December 2016.

The figures used are from the NRM data with a cut-off date of **31/12/2016**. Some of the cases remain open with the Competent Authorities and decisions on their trafficking status are yet to be made. The NRM is a 'living' process and data should be considered provisional until all cases are concluded. Some values may differ from previous or future reports as supplementary information is revealed throughout the duration of a case and their records are adjusted accordingly.

This report does not provide any analysis of the picture of modern slavery in the UK. It provides figures relating to the number of potential victims that have been referred in to the NRM process during the reporting period October to December 2016, but does not contain decision data for the year to date due to the number of pending cases.
